We're creatures of habit. Especially when it comes to traveling. More often than not, when we find an airline or destination type we like, we tend to stay with it for future vacations.

The same goes for hotels. We like the beds. We like the service. We really like the loyalty points.

Every once in a while, though, something new comes along that causes our eye to wander at decision time. These 17 just-opened (or about-to-open) hotels are the latest high-end culprits. These sparkling beauties are so well designed and packed with so many luxurious touches that any brand loyalty you thought you had will be challenged.

Ladies and gentlemen, we present the summer debuts that will almost certainly become your favorites by fall.

Park Hyatt St. Kitts

Opening: Fall 2017 (editor's note: the hotel updated its opening after publishing)

Why you need to go: Park Hyatt's first Caribbean hotel lands in St. Kitts' secluded Banana Bay. Look forward to a contemporary take on colonial style, beachfront rooms, suites with private pools, a rum bar, a spa with Watsu therapy and "Journeys" that acquaint you with local life, such as walks with an island historian and rainforest excursions.
