

May 10, 2013

UAE-based *Range Developments* confirmed this week breaking ground for the future *Park Hyatt St Kitts* project on the Caribbean island of St Kitts. When completed, the Park Hyatt St Kitts, will be a major highlight of *Christophe Harbour*, a 2,500 acre resort community on the island's southeast peninsula. The development will feature 165 rooms and up to 43 branded residential villas and apartments across three phases (the first phase will be comprised of 125 rooms).

The luxury resort will be surrounded by world-class recreational facilities, including a Tom Fazio designed golf course and yacht club, the statement added. The resort will be operated under a long term management agreement by **Park Hyatt**.
